

```
// Mobile nav toggle
const navToggle =
document.getElementById('navToggle');
const navLinks =
document.getElementById('navLinks');

navToggle.addEventListener('click', () => {
  navLinks.classList.toggle('open');
});

// Close mobile nav after clicking a link
navLinks.querySelectorAll('a').forEach(link => {
  link.addEventListener('click', () =>
navLinks.classList.remove('open'));
});

// Scroll-spy: highlight active nav link based on
section in view
const sections =
document.querySelectorAll('section[id]');
const navItems = document.querySelectorAll('.nav-
links a');

const spy = () => {
  let current = '';
  sections.forEach(section => {
    const top = section.offsetTop - 120;
    if (window.scrollY >= top) current =
section.getAttribute('id');
  });
  navItems.forEach(link => {
    link.classList.toggle('active',
link.getAttribute('href') === `#${current}`);
  });
};
window.addEventListener('scroll', spy);
```

```
spy();

// Footer year
document.getElementById('year').textContent = new
Date().getFullYear();

// Contact form (front-end only placeholder –
connect to a backend or form service to actually
send)
const form =
document.getElementById('contactForm');
form.addEventListener('submit', (e) => {
  e.preventDefault();
  const button = form.querySelector('button');
  const originalText = button.textContent;
  button.textContent = 'Message Sent ✓';
  form.reset();
  setTimeout(() => { button.textContent =
originalText; }, 2500);
});
```
